

Aqua Art £55 per child

Looking for a fun, healthy, educational day for your 8 - 12 year old? Try Aqua Art! Firing Earth and The Oxygene Cranleigh Dive Centre will be teaming up to offer this exciting art/dive experience.

How it Works

The day will start at 11am at the Firing Earth Ceramic and Art Studio, next door to the Oxygene Dive Centre. The children will be painting ceramic tiles with a reef scene and a variety of fish, whilst at the same time learning some of the fish names and habits. Who can get their fish colours as close as possible to the real thing?

A cold buffet lunch will be provided in Firing Earth made by Bricks Restaurant. Then the children will be escorted by the Instructors of Oxygene Cranleigh down to the pool at the new Surrey Sports Park. Once there they will be lead through the PADI Bubblemaker program...a try dive for kids! We will return to the dive centre at around 4pm.

Whats Included

Your own 6" tile, with fish and paints.
Lunch with sausage rolls, sandwiches, drinks, etc.
Your own Bubblemaker Scuba experience including equipment hire and certificate.
